## APPENDIX №5

### DECLARATION

#### ON

### HEALTH AND SAFETY POLICIES OF SOLAR LED POWER LTD.

Following the humane principle of the utmost value of the human health and life in any endeavor, the higher management of SOLAR LED POWER LTD. defines the care for health and safety of its staff in the work environment as its main priority closely linked to its business interests.

Among the priorities of the company is to maintain and constantly improve the health and safety management system in order to limit to the minimum the risks and prevent injuries and professional sickness of the staff and third parties engaged in the work process. The company health and safety policy strictly complies with the legislation of the Republic of Bulgaria and the relevant European legislation.

Top management has created, implemented and maintains a Health and workplace safety policy which:

- a) includes a commitment to provide safe and healthy working conditions for the prevention of workrelated injury and ill health and is appropriate to the purpose, size and context of the organization and to the specific nature of its OH&S risks and OH&S opportunities;
- b) provides a framework for setting the OH&S objectives;
- c) includes a commitment to fulfil legal requirements and other requirements;
- d) includes a commitment to eliminate hazards and reduce OH&S risks (see 8.1.2);
- e) includes a commitment to continual improvement of the OH&S management system;
- f) includes a commitment to consultation and participation of workers, and, where they exist, workers' representatives.

The workplace Health&Safety policy:

- is available as documented information;
- communicated within the organization;
- is available to interested parties, as appropriate;
- is applicable and appropriate.

Following and improving of the health and safety policies are closely related to the improvement of the efficiency of work of SOLAR LED POWER LTD.
